

## Recycling Facts

Recycling 1 ton of paper you save:

- 17 trees
- 6,953 gallons of water
- 463 gallons of oil
- 587 pounds of air pollution
- 3.06 cubic yards of landfill space
- 4,077 kw hours of energy

Aluminum Facts:

- There is no limit to the amount of times alum can be recycled.
- A used aluminum can is recycled and back on the grocery shelf as a new can, in as little as 60 days. That's closed loop recycling at its finest!
- Recycling one aluminum can saves enough energy to run a TV for three hours -- or the equivalent of a half a gallon of gasoline.

## About Us

Recycling Express has been a leader in the waste paper industry since inception, and with 20 years of experience in the industry, it is your premier choice for waste paper management.

In October 2009, Recycling Express purchased a 234,000 square foot facility. With state of the art equipment being installed in our new facility, Recycling Express will be able to increase capacity by 100% over the next year.

Recycling Express knows that our customer's privacy is important and have installed a state of the art security system. In addition to our security system we have become a member of NAID; The National Association for Information Destruction. Recycling Express has also been working to be certified with NAID.

Recycling is important to us not only from our customers but within the company. Recycling Express has become a Green Partner with the Northern Kentucky Chamber of Commerce. We hope to reduce our consumption by 15% over the next three years.

## WHAT WE RECYCLE

- Paper
- Newspapers
- Books
- Cardboard
- Plastics
- Ferrous and non-ferrous metals
- Glass
- Pallets

## SERVICES WE OFFER

Recycling Express offers crate service to a wide range of businesses. Our sturdy Hunter Green plastic crates vary in style and size and can be tailored to virtually any work area situation. We also offer a large wooden crate which is similar to the plastic crate in that it is easily maneuvered in the area placed. We also offer a 95-Gallon, 2-wheel plastic recycling can with an attached lid. This container is primarily placed in an office area or where space limited. Our gaylord and skid combination is another container option. This is a large corrugated unit set up on a skid. Pictures of all our containers can be viewed on our website. We also offer the option to have the crates and cans locked, to keep business documents secure until destroyed.

For larger accounts we offer trailer service. Trailer service is designed to pick up large amounts of bales, crates, gaylords and/or skids. Turnaround for trailer service is typically within 24 hours.

We are now able to offer container services. Roll-off compactors for use with cardboard and open top boxes for metal.

## RESIDENTIAL

Recycling Express's main focus has always been on commercial recycling. Recently we have been able to make it easier for residential customers to drop off their recyclables. We also ensure complete security on destruction of important documents. We also are able to pay cash for any amounts of metal dropped off. Metals include Copper, Brass, Aluminum and Steel.
